DETAILED ACTION

Specification

1. The substitute specification has been entered. The disclosure is, however, objected to because of the following informalities: At page 7 of the substitute specification the phrase “(Is this what occurs?)” should be removed as it appears that this may be merely a note created during editing.

Appropriate correction is required.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the plurality of pales and fasteners must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 19 is objected to under 37 CFR 1.75 as being a substantial duplicate of claims 11 and 18. When two or more claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim.

See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, beginning the claim with the word "The" makes it unclear as to whether it is meant to be independent or, rather, to depend from another claim. Further, in the second to last line of claim 19, recitation of "a respective fastener a respective fastener" renders the claim indefinite because of the redundancy and also because it is unclear as to whether this fastener is the same as or different from the fasteners previously recited.

Allowable Subject Matter

6. Claims 11-18 are allowed.

7. The following is an examiner's statement of reasons for allowance: the prior art, including Phillips, Novoplast, and Kreusel, either alone or in combination, fails to disclose a fastener extending into a respective first concave wall and drawing the first wall against the rail with at least partial flattening of the first wall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
